MATCH BOARD

Diemme Lab / 2025

The smart table for dynamic spaces. MATCH BOARD is the ideal solution for flexible and ever-evolving work and learning environments. Its essential design, combined with a metal frame on wheels (available in black or white paint), makes it easy to move even in crowded settings. The flip-top, which is operable with one hand, allows for quick reconfiguration of the space, making it perfect for meeting rooms, classrooms, hybrid offices, and multifunctional environments.

Telescopic beam customize your table

The work table is equipped with a telescopic beam that allows the frame to adapt to tops of different sizes. By extending the beam, the structure can accommodate tops ranging from 120 to 180 cm, offering great design flexibility.

The version presented here is available with 140 cm and 180 cm tops: ideal sizes to ensure the perfect balance between functionality and compactness.

Match your space: create the ideal solution, different every day

Match Board and the Match chair 4-leg version on wheels share a clean and functional aesthetic, designed for dynamic and reconfigurable environments.

The wheeled structure ensures maximum freedom of movement, while the stackability of both elements, flip-top tables and chairs up to six units, allows spaces to be cleared quickly and kept organized. A compact and consistent solution, perfect for spaces that change daily.

Colors and Configurations

The tabletop is available in five finishes, white, black, blue, green, and brown, so it fits into both formal and creative spaces.

With the connecting accessory, multiple tables can be stably joined to create clean, continuous modular layouts.

When not in use, Match Board folds and compacts easily, optimizing space.

Table

Flip-top and mobile table with painted metal frame, available in black or white. The version with a telescopic beam allows adjustment to six different lengths: 120, 130, 140, 150, 160, 170, and 180 cm. Tabletops are available in 140 cm and 180 cm lengths in white, black, blue, green, and brown finishes, with a thickness of 19 mm. The table features a one-hand operable flip mechanism via a handle placed under the top. Swivel casters with brakes ensure easy mobility and stability. A joining hook is available for stable linking of multiple tables.
