Fascino-2

Second and third generation managing directors: Helmut, Werner and Joachim Link (left to right)

Interstuhl

The idea of a Swabian businessman and developer is embarking on an international journey. It's all about attractive and healthy seating, whether we use it to work, think, discuss, argue or relax.

It's all about a chair that actively supports us at what we are doing.

Interstuhl innovations are conceived, tested and developed in an interesting mix of think-tank and expert laboratory. That is what makes us so unique. Simply stated by Werner Link, the company's owner and Managing Director: "We understand more about sitting". An honest statement that has its origins back in 1961 when the assignment was to create relaxing seating for the workers of a textile factory. The focus ever since has been on expertise and

a genuine interest in our products and the people who use them. We remain true to the spirit of our brand by collaborating with leading institutes on the scientific development of our products. This has resulted in a collection that is unparalleled in its breadth and depth. He who understands more about sitting, has studied it in detail. Interstuhl is such a company and will remain so: a world away from corporate affiliations and concerns about globalization. Over 600 employees craft exclusive German goods and they do so in Germany.

Anyone who understands more about sitting should rise up. Rise above the tired old clichés about quality and materials. Interstuhl is what it is, and what it is is very good.

Fascino-2 sets high standards: a fixed table leg system that is both open and diverse. A program designed for higher class seating and an executive working style. Light and intriguingly delicate, each model is a definite enhancement at a conference or meeting. Modern and transparent is also the philosophy behind the table - a space to think, move, talk and act.

An individual in both presentation and finishing, Fascino-2 is the perfect table for every idea and concept. A range of dimensions, tops and surfaces create many different environments. Either a solitary highlight or the perfect table group for conferences. As a rectangle, oval, ellipse or round. With a satin

glass top, quality wooden veneer, or durable laminate finish and stable cast aluminum frame. All models with wooden or artificial surfaces are equipped with electrical connections and cable ducts. Beauty inspires.

Fascino-2 in the boat shaped conference version with a satin finished glas table top. An exclusive table for conferences where style and interiors have an impact. Combined here with Axos conference cantilever chairs.

The wooden tabletops are perfectly crafted. The bevelled edges make the tables appear light and airy.

Silicon rings hold the glass top securely and are virtually invisible.

Integrated connection boxes for wooden tops, revolving or swiveling. Cable ducts and channels are additional extras. Multiple configurations for power and data connections.

Transparent and light, the frame is available in black, brilliant silver, aluminum polished.

Table with wooden top / laminate surfaces

- _ Feet of cast aluminum
- _ Slim, transparent form
- _ Light and airy appearance
- _ Wide range of dimensions and special sizes available
- _ 30 mm MDF top
- _ Edges bevelled to 13 mm
- _ 0.8 mm wood veneer or laminated finish
- _ Power and data connection boxes, horizontal and vertical cabling
- _ Black adjustable gliders
- _ Textile screen available upon request
