

X12

designed by Dorigo Design

**The evolution of executive design
X12 reinvents executive desks with a dynamic twist: height-adjustable, it combines practicality, flexibility and well-being. The structural monolith, which intersects perpendicular to the top, produces a bold aesthetic with a strong personality.**

Evoluzione direzionale

X12 reinterpretava la scrivania direzionale in chiave dinamica: regolabile in altezza, unisce funzionalità, flessibilità e benessere. Il monolito strutturale, che si interseca perpendicolarmente al piano, definisce un segno distintivo di forte identità.

Executive Desks

The height-adjustment mechanism improves ergonomics and flexibility, meeting the demands of today's executives. The height settings allow for instant adjustment, while the top and built-in unit ensure tidiness and customisation.

La regolazione in altezza migliora ergonomia, postura e flessibilità, rispondendo alle esigenze del management contemporaneo. Le memorie richiamano subito le posizioni, mentre il piano e il mobile integrato garantiscono ordine e personalizzazione.

12

The veneer wood top brings warm light and an opulent textured surface, suited to diverse configurations. The contrast with the lacquered legs, available in various shades, results in a contemporary and elegant design.

Il piano in legno impiallacciato diffonde una luce calda e una matericità avvolgente, in armonia con diverse configurazioni. Il contrasto con le gambe laccate, disponibili in più nuance, definisce un design contemporaneo ed elegante.
